Dear Study Abroad Participant:

One of the important benefits the Arcadia University Center for Education Abroad provides to each program participant is health and accident insurance. Although we sincerely hope that you will never have to use this insurance, you need to know about it just in case. The purpose of this mailing is to share insurance information with you, and to tell you how to obtain answers to specific questions concerning policy benefits and coverage.

International students studying in New Zealand are required to have adequate health and travel insurance for their intended length of study in New Zealand. Each university in New Zealand may select a preferred insurance supplier for the institution provided the coverage meets or exceeds all the government mandated requirements. The minimum coverage in New Zealand, regardless of the insurance supplier, exceeds the standards set by Arcadia University for study abroad participants.

Enclosed is a description of the university plan in which you will be automatically enrolled throughout your period of study in New Zealand. Coverage begins on the day your group flight leaves the United States and is in effect through the end date listed on your program calendar. If necessary, you may coordinate additional coverage for travel time, either before or after your program, by contacting the International Student Advisor at your host university in New Zealand.

Upon review of the enclosed material, you will see that pre-existing conditions are not generally covered by this policy unless approved by the insurance supplier in advance of treatment. The majority of medical conditions with onset during the study abroad period will be covered on a reimbursement basis. In addition, the insurance may offer limited coverage for prescriptions, loss of personal property, and limited loss incurred during travel. Please read through the Schedule of Benefits and specific information pertaining to claims prior to your departure for New Zealand.

In addition to the New Zealand student insurance plan described in the attached material, valuable insurance is provided in conjunction with the International Students Identify Card (ISIC). The ISIC provides emergency coverage for some contingencies such as evacuation and repatriation of remains. The ISIC also makes available insurance for your baggage and personal effects at reasonable cost. Arcadia University does not provide such coverage, however, we strongly suggest that you arrange for it if not included with the insurance provided by your New Zealand University. Some homeowners’ or renters’ insurance policies may include theft and damage coverage for the personal property of family members who are traveling. Check to see whether you already have such protection before purchasing an additional policy.

Finally, it is always a good idea to leave a photocopy of the relevant insurance information, your ISIC card, and the photo page of your passport with someone at home. This way, the valuable information these documents contain will always be available to you or your relatives in the event of an emergency while you are abroad.

Please feel free to write or telephone your Arcadia University program coordinator, Jennifer Brewer, with questions about any of the points raised in this letter.

Sincerely,

Andrea Patrick
Associate Director
